
JAVIER NEHUEN LOPEZ

Full Stack Developer

Dear Hiring Team at Ventura TRAVEL:

I am excited to apply for the Fullstack Developer for Automations position at Ventura TRAVEL. With solid experience in JavaScript, TypeScript, Node.js, and relational databases like Postgres, I am confident in my ability to contribute to your mission of promoting sustainable tourism through reliable tech solutions.

I have hands on experience developing and maintaining features based on evolving business needs, and I am skilled at collaborating with cross functional teams to ensure seamless integration. My familiarity with Git flow and agile project management practices will allow me to smoothly align with your team's processes. Additionally, I am eager to work with automation tools like Make and explore new opportunities to innovate with AI and GraphQL.

I would love to join Ventura TRAVEL and help achieve its vision. I look forward to the chance to meet your team soon.

Sincerely

Javier Nehuen Lopez
